

# Ridge Preservation And Extraction Site Enhancement

Presented by  
Walter C. Chitwood, Jr., DDS

## Why Attend This Ridge Preservation Course?

- ◆ Ridge preservation grafts at the time of extraction help eliminate bone resorption.
- ◆ Grafting provides better bone volume for future implant placement.
- ◆ Grafting provides better ridge development for pontic design or prosthetic ridge support.
- ◆ Grafting is easily implemented into your practice with minimal cost.

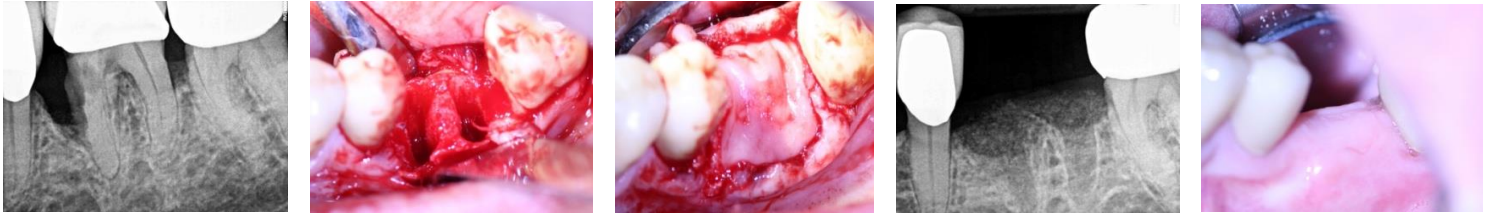

## Teaching Objectives:

- Learn the proper indications, techniques, and methods for proper ridge preservation delivery through lecture and hands-on instruction.
- Learn the difference between various graft materials and their appropriate applications.
- Learn the different types of sutures and the indications/techniques for their use.

**Spend a day with us to learn how you can benefit your patients while enhancing your practice with this profitable service!**
